VERTIKLEAN®

Wall Washing System

7" / 12" / 14"

Aerospace / Life Sciences / Microelectronics

VERTIKLEAN®
Wall Washing System
7" / 12" / 14"

Features

The VertiKlean, polyester fabric coated ester foam mop, disposable head, is used with its corresponding hardware for wet cleaning of walls and ceilings in sterile and non-sterile environments.

The head, ester foam coated with polyester fabric for cleaning, provides excellent liquid absorbency as well as good abrasion resistance.

The wall washing system VertiKlean provides a full range of motion and is ideal for reaching difficult corners and ceiling areas.

VERTIKLEAN®
Wall Washing System
7" / 12" / 14"

Benefits

- Laser cut for clean sealed edges.
- Disposable head eliminates cross contamination.
- Sterile disposable head to meet AAMI guidelines.
- Compatible with a wide range of solutions.
- It is used with independent wringer and bucket.
- Recommended for individual use, due to the risk of cross contamination.

VERTIKLEAN®
Wall Washing System
7" / 12" / 14"

Technical information

Mop head component materials (cleaning surface first)

Knitted polyester fabric / 60ppi polyester foam Construction Multi-layer; flame bonded

Construction

Multi-layer; flame bonded

Attribute; (units)	Value **	Test Method
Sponge weight, dry; (g/sponge)	11.3	N/A
Sorbency in water		
Wet capacity; (mL/sponge)	1724	N/A
Non-volatile residue, NVR		
In deionized water; (g/sponge)	0.004	IEST-RP-CC004.2, Sec. 6.1.2
In isopropanol; (g/sponge)	0.006	
Particles $\geq 0.5\mu\text{m}$; ($\times 10^6$ /sponge)	0.229	IEST-RP-CC004.2, Sec. 5.2
Fibers $> 100\mu\text{m}$; ($\times 10^3$ /sponge)	0.013	IEST-RP-CC004.2, Sec. 5.2

** ND = None detected; levels are below detection limit of test equipment
